HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 8 YEARS' SUFFERING.

Extract of a Letter from Mr. William Ralphin, of 70, St Mary's Street, Weymouth, dated May 15th, 1851.

To Professor Holloway,

SIR—At the age of 18 my wife (who is now 61) caught a violent gall, which ended in her legs ulcerated so that for three years she had been more or less confined to her room. Her agonies were at times excessive and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried but without effect; her health suffered severely, and the state of her legs was terrible. I had seen your advertisements, and advised her to try your Pills and Ointment; and as a last resource, as every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate is now in good health. Her legs are painless without a seam or scar, and her sleep sound and undisturbed. You do not know the extent of the suffering of my wife during the 8 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of greatly alleviating the sufferings of a fellow creature. (Signed) WILLIAM RALPHIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. Wm. Alder, Builder of Gas Works, of Bushley Green, near Huddersfield, dated May 21 1851.

To Professor Holloway,

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works; accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact. (Signed) WILLIAM ALDER.

The truth of this statement can be certified by Mr W. P. England, Chemist, 13, Market Street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a letter from Mr. Frederick Turner, of Penshurst, Kent, dated December 12th, 1850.

To Professor Holloway,

DEAR SIR,—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to resort to your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends. (Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff Joints	Sore-throats
Bunions	Elephantiasis	Skin-diseases
Bite of Mosquitoes	Fistulas	Scurvy
Chilblains	Gout	Sore-head
Coco-Bay	Glandular Swelling	Tumours
Chingo-foot	Lumbago	Ulcers
Chapped hands	Piles	Wounds
	Rheumatism	Yaws

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, . . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expedious mode of sending them to the Patent Office, *where by a Patent may be procured about six weeks earlier* the continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *literally* explaining their inventions, and consulting in respect to them, *matters of great and of paramount importance in order to obtain correct specifications and claims.* The experience of sixteen year's practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors, desirous of procuring Patents, assistance and information which in other respects must be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor in procuring Patents. There were few if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents. Sept 8 1852. 1y

JAMES FREDERICK FOSTER, MANUFACTURER OF

Ratchet and Spiral Trusses,

467 *Washington Street*, 467, BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs CAROLINE D. FOSTER, who has had twenty years experience in the business.

Sufferers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 467 opposite to the subscriber's residence 457, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. Abdominal Supports of five or six different kinds, and such as Elastic Stockings, Chapin's Spinal, Cutter's, Fitch's, Ingall's, &c. &c.

Ladies wanted upon by Mrs. Caroline D Foster at the above place.

The following certificate from Dr J C Warren of Boston, was given 16 years since, but will last forever:

BOSTON, January 7, 1835.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the correct method Mr J. F. Foster, to supply the deficiency discovered by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenuous in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C WARREN, M D, Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary.

The undersigned having occasion to employ Mr. J. Frederick Foster of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpasses (as far as our experience goes,) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J C Warren, are a sufficient guaranty for all who may favor Mr F. that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation. Blackwood's Edinburgh Magazine, (Tory.)

ALTHOUGH these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood*, still under the fatherly care of Christopher North, maintains its ancient celebrity and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel" (both by Bulwer) "The Green Hand" "Katie Stewart," and other serials, of which numerous rival editions are issued by the leading publishers in this country have to be reprinted by those publishers from the pages of Blackwood, after it has been issued, by Messrs Scott & Co, so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

To the Hon. Senate and House of Representatives of Maine, in Legislature assembled:

THE undersigned, your petitioners, respectfully represent that the lumbering interest requires that there should be a dam erected across the Passadumkeag Stream, near the bridge in the town of Lowell, in the county of Penobscot, with a sluice suitable for running rafts, and that saw mills and other machinery may be advantageously erected on said dam.

The undersigned therefore pray that they and their associates may be incorporated into a company by the name of the Lowell Dam Company, with the right to erect such dam and sluice, mills and other machinery; and that said act of incorporation may provide that the County Commissioners of said County of Penobscot, shall be the tribunal to settle all questions of damages to the owners of said stream, and that the Tolls for running rafts through said sluice may be specified and provided in said Act.

Your petitioners would further state that the effect of a dam at the point aforesaid, will be to render said stream navigable for rafts twelve miles further than it now is, also to materially increase the facilities for driving logs.

Municipal Election.

[illegible] be attention of our readers, a few [illegible] the underground movements then [illegible] in the way of preparation for the spring election, and to secure the choice of city officers opposed to the enforcement of the Liquor Law, and in favor of abolishing the city agency established under that law. We did not then believe that it was necessary to point out the men who were engaged in this enterprise, nor do we now believe it necessary. Their intentions and their designs are well understood, and [illegible] duty to utter a warning. That [illegible] the attention of the friends of [illegible] and of the Maine Law and its ex[illegible] the subject, and that was all that [illegible] aimed.

[illegible] that there is a poor prospect of [illegible] in an enterprise of open opposition to [illegible] tion of the law and the subject must [illegible] differently treated. It must be considered [illegible] the execution of the law in Bangor is [illegible] that everybody is in favor of it—[illegible] here is no necessity of making it an issue, [illegible] ing anything about it. The people have [illegible] ces and all that is now wanted in order [illegible] government is to have the taxes less. [illegible] every one likes to hold on to his money [illegible] so far as the public is concerned, and [illegible] of reform cannot fail to be a popular move[illegible]

[illegible] a fact that the city must [illegible] pockets of its citizens the means [illegible] ing the public expenses. This should [illegible] reby teach the public authorities the [illegible] economy. They feel that they can [illegible] nerwise. If they should great evils [illegible] the virtue of economy the cases in which [illegible] regard appeared would be as once her [illegible] the public eye. The aggregate of ex[illegible] always appear large even where [illegible] possible to specify the objects in [illegible] is been an excess of expenditure, [illegible] public money might have been [illegible] perly withheld.

[illegible] lation at the City Hall has not al[illegible] en of a character to meet our approval [illegible] metimes been fractured a little too [illegible] ith a narrow sectarianism, very shrewd[illegible] ally managed. It is very difficult to [illegible] it otherwise with sleepless vigilance [illegible] le, and unsuspecting confidence on the [illegible]

[illegible] s now raised are not in refer[illegible] ge in this respect. They take [illegible] a desire primarily and mainly to [illegible] hange in the policy of the city author[illegible] regard to the execution of the Maine Law [illegible] fear that unless this is kept in the back [illegible] great efficiency will be required in the [illegible] tion of the law.

[illegible] are of opinion that greater efficiency is [illegible] red and if we understand public sentiment, our citizens instead of being contented [illegible] satisfied with what has been done demand [illegible] ewed activity and zeal in the matter. The [illegible] is not yet accomplished. The full capacities of the law as it is have not yet been re[illegible] ed. More effort is yet required.

[illegible] cant to be necessary to show that this is in [illegible] inconsistent with a wise efficient and [illegible] al administration of the affairs of the [illegible] y are more likely to be united than [illegible] There can be no danger from hav[illegible] men who are in favor of the [illegible] on of the law, in the city government. [illegible] among such, good men in all other re[illegible] may be found. But there is danger at [illegible] ce in having men in the city govern[illegible] are opposed to the execution of the [illegible] ever strong they may be in holding on [illegible] se strings. The suppression of in[illegible] ce is a vital matter and should be re[illegible] every will wisher to the real pros[illegible] he city. We do not intend to be [illegible] d in this matter by any other issue which [illegible] be presented. We have an abhorrence of [illegible] doings in our city and the world. It has [illegible] many over tob many men. It has blotted [illegible] many minds. It has ruined too many [illegible] es has crushed too many hearts, has par[illegible] too many communities blighted too [illegible] bright hopes, and trampled with its iron [illegible] on too many of the dearest interests of [illegible] y. We shall oppose it to the last as [illegible] we can do for he public good and for [illegible] ation of the race.

[illegible] of our political creed that the ob[illegible] overnment is to benefit the people and [illegible] ject should be to confer the most possible [illegible] its within its ability. The times de[illegible] an efficient and enlightened administra[illegible] of our municipal affairs, having reference [illegible] resent and future position and relations [illegible] y. It will not answer now for our [illegible] horities to roll themselves up in a coc[illegible] from Sleepy Hollow and do nothing mere[illegible] they may report at the end of the year [illegible] they have spent nothing and incurred no [illegible] ities. To fold themselves up in a torpid [illegible] now would be criminal against which the [illegible] of a few thousand dollars would be no [illegible] cient answer. Bangor is not in a position [illegible] to retire to its den and merely keep up the [illegible] of life, like a bear in his winter retreat, [illegible] previously accumulated grease. She [illegible] be ready for the movement of the times, [illegible]ently, cautiously, economically but wisely, [illegible] resolutely and fearlessly. A new era in [illegible] ses is unfolding and the public author[illegible] as the private citizen, should be [illegible] ady for an change and submit to some pres[illegible] inconveniences in order to accommodate the [illegible] advantages.

[illegible] in view of the case there is an apparent [illegible] necessity, however unpleasant and disagreeable, [illegible] a removal of the public Cemetery on Main [illegible] street. Let us submit to this, though it wound [illegible] heart afresh, and disappoint our expecta[illegible] tions, and shock our feelings. Let us bury our [illegible] dead anew, if thereby we can benefit the living, [illegible] and establish here the great and beneficent in[illegible] stitutions of government, learning, religion, [illegible] civilization and reformation, upon a broader [illegible] basis, and with wider influence.

Such it seems to us, are the practical results [illegible] of a true view of the duty of our city govern[illegible] ment, and our citizens. But if the one idea be [illegible] only to save money, then no such duties can be urged. The object is unworthy these sacrifices. The benefits which an active and efficient government may confer, are worth what they cost, and more while a weak, do nothing government, though it nominally costs but little, costs too much, and is a nuisance.

A View of California.

A gentleman belonging in this vicinity recently returned from California, gives an account of many scenes of suffering which he witnessed in the golden land, and among them that of two hundred and eighty miners who left the mines with him for San Francisco. Of this number of hard working, industrious and faithful men, one hundred and sixty were obliged to remain in San Francisco, not having the means of paying their passage home. The parting was heart sickening. Many last and desponding words were uttered and many tender messages sent to wives and parents, to children, brothers, sisters and friends.

There were many left behind, at the mines, who could not reach even the city. At one place on the route there was a camp in which were eleven persons, five had died and the other six were greatly emaciated and in a starving condition, and keeping the breath of life in them by feeding upon the dead bodies of their companions.

Such scenes make the heart sick. They seem like an exaggeration, but they are doubtless correct. We have looked over some of the California papers, by the last mail, and we find in them the following accounts which are sufficiently gloomy, and which afford a graphic view of the suffering endured the present winter, by the Pilgrims in the mines and those seeking their fortunes in the new State.—

A correspondent in Sonora writes.—

Not a pound of flour can be bought in town. The bakers have none left and the large hotels that are supplied by them are consequently reduced to the necessity of substituting something else for the staff of life. The stock in town would probably have sufficed for the inhabitants, had not the supply given out in the neighboring towns and camps. But this being the case the people have come in from all around and in some cases as far as a dozen miles, and the little stock we had is now all gone, and none of the teams which have been so long on the road have yet arrived. The last flour sold in town brought one hundred dollars per barrel.

Montezuma, Jany 8th

I left Sonora yesterday in a miserable, drizzling rain, the mud knee deep in the streets, the provisions for the people well nigh exhausted and a slim chance for an immediate supply. As I came down to Jamestown I met no teams and very few this side of there. One poor traveler I overtook, who gave me a sad account of his sufferings and privations. He said he had recently come from the Northern mines through Calaveras county; that he had been trying to get work all the way sufficient to support him but without success, and yesterday, which was Friday, he said he had been pushing on since Sunday, and had but two meals all the while; that he was completely worn down and exhausted and had hardly strength to walk. I believe he spoke the truth, for his talk savored of the sharp and terrible character of despair. I pitied the man, and left him not till I saw him in the way to appease his hunger. More than that I could not do for him.

At this place I met a man I had formerly known, from Mariposa. He gave me a sad account of things in that direction. He stated that from the time he left Mariposa till he reached this place he was unable to obtain a morsel of food at any price. Money could not buy it. The only thing which he and his companion had to eat on the route—and they were two days on the road—was a small box of sardines, which they took with them when they started. I learn that there are good many teams between this place and the river, laden with provisions but they make slow progress.

Here at this place which is eight miles below Sonora, flour is selling at fifty dollars per hundred, and scarce at that.

Nevada, January 9, 1853

The weather in the northern mines continues to be unauspicious—with the exception of two or three days, for seven weeks snow and rain have fallen beyond all precedent. Without imminent risk to health and life, it is quite impossible for the miner to pursue his avocation. Add to this the limited supply of the actual necessaries of life in all the mountain regions and the extreme difficulty of replenishing the exhausted stocks from the heavy and almost impassable state of the roads, together with the extremely high price of provisions already existing and it must be acknowledged that these unexcelled features in the life of the miner, added to the hardships naturally consequent on his calling, cannot but command the sympathies of all more fortunately situated in regard to the immediate and pressing wants of life. Cut off from the usual remunerative resources of this industry, the ground covered with immense deposits of snow that make his labor fruitless however willingly expended—or the heavens pouring forth a deluge of rain—famine gaunth and boldly at times look in his care worn face, a long dreary winter in prospective—and in the lowering skies no bow of promise bright harbinger of the future to make him forget his present wants and privations in the thoughts of gliding streams and sunny skies—and who in the various callings of the world's busy scene, will be discontented with their lot or envy the chequered and precarious life of the gold seeker.

The Marysville Herald says.—

Mr J C Davis arrived in town last night (Wednesday) from the north fork of Feather river and reports great suffering through all that section of country. At all the points viz Rich, Indian and Junction Bars, on the North Fork at Rush Creek, American, Spanish and Mellow Valleys, there was not a pound of flour, with the exception of a small amount in reserve for the use of the females who are residing here. Some 90 or 100 men came out with Mr Davis, but did not come through, owing to exhaustion and are now scattered along the road at different ranches, recruiting. Three Kanakas (names unknown) perished in the snow, they had subsisted for eight days on dog meat previous to starting and being much reduced, gave out. There are still about 70 men at Rich Bar, unable to get away, and almost destitute of provisions. The buildings on Rich Bar, which were not inhabited, were crushed by the snow. Our friends Hunt & Lindley suffered severely, having, in addition to the destruction of the El Dorado on Rich Bar, lost their new saw mill. They lost one last year also, and this double misfortune will fall heavily on them.

Messrs Clark and Wagner of Rich Bar, and Mr Dean of Meadow Valley, started out with trains of mules yesterday for the relief of the sufferers. We hope they may succeed in getting along.

Mr. Davis reports the snow at the Pearsons ranch as being 12 feet deep, and at the Frenchmans, and Buck's ranche, as "being without bottom."

The Relief Committee of Sacramento have dispensed bounty to more than six hundred destitute persons, of whom two hundred and sixty-seven were women and children. The Committee have remaining unappropriated $3,764, and a considerable quantity of merchandise.

The Union says the water in the Consumnes river and valley is higher than it was ever before known, and has destroyed a great deal of property. A gentleman passed two hundred wagons, most of which were stuck fast in the mud, between Jackson and Sacramento.

The Journal says there are 114 patients in the State Hospital at Stockton, and sixty-four in Insane Asylum.

Mr. Alphonso Borland and Mr John Adams arrived at Sacramento on Friday, with the Great Salt Lake mail. The Union gives the following account of the trip across—one of the most wonderful feats of traveling on record.

The party in charge of the mail—Mr Borland, accompanied by Mr. John Adams—left Salt Lake on the first day of last November. At Hensel's Springs, about 120 miles out of Salt Lake, they encountered a snow storm of great severity, which fell to the depth of two feet. At Goose mountain, the snow storm changed to one of hail and sleet, so that when they stopped to camp at night, it became necessary to whip their mules at intervals till morning, to keep them from perishing. So intense was the cold, that Mr Borland's feet were frozen. Their mules lived chiefly on wild sage, and on resuming their journey were obliged to wade side deep through the snow. Six days previous to their arrival at Carson Valley, they were entirely out of provisions, and subsisted only on strong coffee, a plentiful supply of which they fortunately had with them. At Carson Valley they stopped a fortnight to recruit themselves and stock.

When the party arrived at the desert their animals were nearly done over from fatigue and hunger. One of them had previously been left, from inability to proceed further. The snow was here from six to ten inches deep, and the air excessively cold. Mr Adams had his feet frozen also, at this point of the journey.

Mr Borland says that there is altogether more snow on the mountains than there was ever known before. At Carson Valley the snow was from two to three feet deep, and the stock was dying off rapidly from starvation.

Previous to arriving at Carson Valley, at a small place named Bogtown, they fell in with about 150 Indians who fired several gunshots at them and a number of arrows, but without effect. The party was armed with revolvers which were however rendered useless by the rains.

About eight miles from Slippery Rock, Mr Brown was overcome by his exertions and gave up, from exhaustion. He was consequently left behind. Mr Parker remained behind to take care of him.

At Lake Valley they encountered the flood, when difficulties of a new order were presented, which they were successful in overcoming, as they had been snow, cold, mountains, hunger and fatigue.

These gentlemen brought the mail safely through, notwithstanding their many hardships and taking the trip altogether, it may be regarded as one of the most remarkable events on the continent.

A Stockton paper says, "In every direction we hear the most discouraging accounts from teams that started out before and during the recent freshet. In many places the teamsters have unyoked and turned their cattle out to feed, deserted their wagons and returned to town.

The same paper contains the following notice of the destitution and extremity to which many respectable persons have been brought.

Beggars.—Several hardy lookingmen have been seen in our streets lately, ragged and bruised by the storm and tempest, asking charity of our citizens—such men have never dreamed of this degradation before, but circumstances have driven them to it as a last resort. The winter rains have come upon them unprepared with unexampled violence, there are no provisions in the mines, and all their wealth perhaps, is in some pile of dirt that have been throwing up all summer. They could not dig because they had no morsel of bread or meat and what must they do but starve or beg.

The flood in the region about the head waters of the San Joaquin has risen to an unprecedented height. On the Four Creeks the whole country is under water. Woodville being ten feet below the surface, and all the settlers have been driven to the high lands. The stock in a great many instances, is drowned.

There are about five hundred settlers on the Four Creeks, and they are all living on beans at present while the market is even scantily supplied with such food, and there are about 200 on the San Joaquin in the same destitute condition. The snow is within ten miles of Fort Miller and the late warm rains have tended to melt it very fast, which accounts for the tremendous freshet.

Weber Creek and Dry Creek, eight miles below this place we learn are higher now than in 49 and it is impossible to cross them.

CONGRESS.

Washington, Feb 25

In the Senate

Several private bills were passed.

Mr Bradbury introduced a bill to establish a court to investigate claims against the United States—referred.

The House bill extending a patent to a threshing machine to Moore and Hoskell was taken up and discussed, and the bill was finally committed to the Patent Committee.

The army bill was taken up and debated.

The question pending was on Mr Walker's amendment, providing for a survey and location of a railroad to the Pacific, &c.

Mr Cass expressed himself highly favorable to the proposition but doubted the propriety of this amendment.

Mr Douglas supported the amendment.

Mr Gwin thought the Senator from Wisconsin ought to withdraw his amendment and give up the contest for a railroad to the Pacific.

After some further discussion, Mr Walker's amendment for a survey and exploration of the most practical route to the Pacific for a railroad was then adopted. Yeas 31, nays 16.

Mr Borland from the Committee on Military Affairs, moved to amend the bill by adding thereto additional sections appropriating $100,000 as a recompense for the discovery of the Anæsthetic Agent, and providing for a bill in equity to be filed in the United States, to which Drs Morton Jackson, and the heirs of Dr. Wells should be defendants, to ascertain which of the parties is the true discoverer of the agent and entitled to the reward.

Mr Bradbury offered an amendment that neither party should receive the money until he had sworn that there had been no collusion between himself and the other parties. Yeas 26, nays 23.

Mr Douglas moved an amendment providing for the construction of a wagon road from the Mississippi to California and Oregon. Agreed to—yeas 25, nays 23.

Mr Davis then moved an amendment appropriating $10,000 for the purchase of the Blue Lick Spring for the Western Military Asylum. Agreed to.

The bill was then reported to the Senate.

The amendments were generally concurred in except those concerning the Superintendence of the Armories and the Blue Lick Spring Military Asylum.

Messrs Davis and Shields, each proposed amendments to the Armory provision, upon which a long debate ensued, pending which the Senate adjourned.

In the House.

The Speaker laid before members a letter from Mr Edward Stanley, a member of the body, replying to reflections upon him contained in certain charges from Com. Ap Catesby Jones, in relation to a private claim heretofore referred to the Committee on Naval Affairs and ordered to be printed.

Mr Jones accused Mr Stanley of being extremely inimical to him, which he (Mr Stanley) denied.

Mr Stanley's letter was laid on the table and ordered to be printed.

The House then went into Committee of the Whole on the Naval Appropriation bill.

LEGISLATURE OF MAINE

IN THE SENATE

Augusta, Feb 25

Mr Enton from the Committee on Railroads and Bridges, reported order of notice on petition of Jos Williamson et als. for a Railroad from Belfast to Moose Head Lake.

Mr Wheeler from the Committee on Interior Waters, reported a bill to incorporate the Bangor and Brewer Ferry Company, which was read once and on petition of Mr Wheeler as signed for Wednesday next.

Passed finally—Bill to incorporate the Bangor Slate Company, to incorporate the Lewiston Machine Company, to increase the capital stock of the Hill Manufacturing Company, authorizing the extension of the charter of the Bangor Boom Company, authorizing the sale of the West Minot Meeting House. Resolve to promote the education of the Penobscot Indians. Bill to amend chapter 200 of the laws of 1846 in relation to hawkers and peddlers.

Mr Stark called up the bill to set off certain territory from Kenduskeag to Levant.

The question on the passage of the bill to be engrossed was taken by yeas and nays, and decided in the negative, as follows.—yeas 7, nays 16.

Adjourned.

IN THE HOUSE

Mr Poinc reported bill, as amended to establish a State Reform School, which was ordered to be printed.

Petitions referred—Hiram Hull and al Lucius Loring and others David B Robinson and al, in and of the incorporation of Portland & Oxford Railroad Company, S P Brown and al, N A Joy and al, in and of Hancock Bank, Jesse Nutting and al, T B Seabury and al Hiram O Merrill and al Elias M. Rome in 1853

A private letter from a well informed American to the Editor of the *Tribune*, dated Rome, January 18th, gives the following sombre picture of the present condition of the Eternal City!

"Rome is in a wretched state. Supported by France and Austria, the Government is proscriptive and cruel in the extreme. What with fines, imprisonments, expulsions, &c., &c., scarcely a family, high or low, that has not been subjected, within the last two years, to some severe punishment for participation, no matter how slight or indirect in the revolutionary proceedings of 1848. The authorities have announced their determination to eradicate everything like republican sentiment, and every day witnesses the execution of painful and rigorous measures notwithstanding the publication of two amnesties of the Pope.

"There is a scheme in contemplation which, if carried into execution, will bind the poor Romans hand and foot, and consign them to slavery forever. The plan originates with Spain, as such a project should. It is proposed that the great Catholic Powers should unite in forming what is called a common Protectorate over the Roman States constituting them neutral hereditary in all cases of war, and guaranteeing to preserve the integrity of the Pope's temporal government against all enemies external and internal. An arrangement like this, which would connect the integrity of this Government with the guaranty of foreign powers would be infamous in the extreme, and certainly, so far as it tended to curtail the imprescriptable right of the Roman people to modify their form of government at pleasure, would be null and void by maxims of public right, which no international combinations, no treaties can override or overturn. I fear however from all I hear, this infamous scheme will be carried out.

TRIUMPHANT OVER DISEASE.

This truly great medicine still goes on, conquering disease and snatching many a poor serious victim from the grave. By its powerfully scrutinizing penetrating and advance qualities it restores the use of limbs which have been palsied for years, and by its singular power of repelling the synovial fluid or joint water, it cures all diseases of the joints with surprising rapidity. For rheumatism and affections of the spine and spleen it has proved itself a specific and for affections of the lungs liver and kidneys it is a most valuable and powerful auxiliary also for all diseases of the glands, scrofula goitre or swelled neck, etc., etc. And indeed for almost any disease where an external application is required this medicine stands unparalleled. Sprains, bruises, cramps, wounds, chilblains burns etc. are speedily cured by it.

From the Hon Peter Menard, one of the oldest settlers in Illinois

It gives me pleasure to add my testimony to the virtues of your great medicine. One of my blooded horses had a swelling over the cap of the knee, about the size of a hen's egg. Some said it was a strain and some that it was the joint water from the knee and could not be cured. I used a cedar oil it, and all the liniments and ointments, and they did no more good than water. I then by persuasion of my friends, tried H G Farrell's Arabian Liniment and I was happy to find it take effect after a few days, and it finally cured the noble animal entirely. I think it is decidedly the greatest liniment for horses as well as human flesh I ever knew.

Tremont, Illinois March 16th 1849

PALSY OR PARALYSIS

Thade Smith of Mudd Creek, Fazewell county Illinois, says "I had lost the use of my arm for more than a year, by palsy or paralysis the flesh had entirely withered away, leaving nothing but skin muscle and bone. I tried all the best doctors, and all the remedies I could hear of but they did no good. I then commenced the use of H G Farrell's Arabian Liniment, and a few bottles entirely cured me and my arm is now as strong and fleshy as the other. It is also first rate for horses, sprains and bruises.

LOOK OUT FOR COUNTERFEITS

The public are cautioned against another counterfeit, which has lately made its appearance, called W B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H G FARRELL'S—and his signature on the wrapper, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by E. F. Hinsell, Oldtown. French & Hamilton, Dexter. Geo. Parcher, Ellsworth. P. O Flaherty, Houlton. And by regularly authorized agents throughout the United States.

Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good testimonials as to character, responsibility, &c.

THE GREAT REMEDY FOR

Coughs, Colds and Consumptions.

VEGETABLE PULMONARY BALSAM is probably without a parallel in healing during a period of more than Four Years the wonderful cures it has effected in the most aggravated cases of CONSUMPTIVE COMPLAINTS and all DISEASES of the LUNGS, THROAT and CHEST. It has been used with probably greater success than any other medicine in the country, it being a highly valuable and very efficacious medicine in all cases where it can be used with any effect. It is also a most valuable remedy for all other diseases for which it is recommended.

Messrs Allen & Co. Gentlemen — I have been in the habit of using the Vegetable Pulmonary Balsam and feel it my duty to bear testimony to its superior efficacy in the cure of Consumption. I have never found any other preparation so efficacious in the cure of Pulmonary complaints. I shall prescribe it in my practice and recommend it to my friends. Respectfully &c. ALLEN & COM

Extract of a letter from the Seneca Falls Courier says — We understand that the effects of Vegetable Pulmonary Balsam have been so decidedly beneficial in the cure of dangerous lung diseases, that we feel bound to notice the fact. We therefore recommend it to all in the vicinity who are suffering with any lung complaint, as we believe it to be the best medicine we know of.

Sold by all Druggists and Dealers in Medicines.

BEWARE OF COUNTERFEITS and IMITATIONS. The genuine Vegetable Pulmonary Balsam has the signature of Wm Jennings on the wrapper, and the initials of the firm on the stamp. Each bottle of the genuine Vegetable Pulmonary Balsam is enclosed in a yellow wrapper.

Prepared by REED CUTLER & CO Importers and Wholesale Dealers in Medicines, Paints & Chemicals, 338 Washington Street, Boston, and sold by Druggists & Apothecaries everywhere. Country Merchants getting up a club and recommending the article will be liberally dealt with by the proprietors.

DR. HENNE'S

Magneto-Electric Machine.

CERTIFICATE—I have examined Dr. Kuhne's Magneto-Electric Machine, and consider it well adapted for medical purposes, possessing the advantage of operating without either chemical solution or labor, and being capable of being wound up like a watch, and giving a continued action of an intensity easily regulated, for nearly half an hour. I regard it as superior to any machine now in use. LEWIS C. ALEXANDER Professor of Chemistry

New York Medical Univ. 3, 1851.

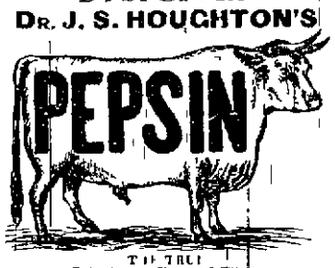
ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE DIGESTIVE FLUID, OR

GASTRIC FLUID

Prepared from RENNET in the fourth STOMACH OF THE OX, after directions of BARON LIEBIG the great Physiological Chemist by J S HOUGHTON M D Philadelphia Pa

THE GREAT Secret in regard to the meaning of word PEPSIN is that it is the Ferment or Great Digesting Principle of the Gastric Juice—it is the solvent of all Food in the Digestive Stomach, it is the active principle of the Digestive Fluid, it is the substance which converts the food into a nutritious chyme, it is the substance which gives the human Stomach its peculiar digestive powers and furnishes a complete artificial Stomach in a bottle.

This NATURAL SOVEREIGN REMEDY is the most effectually so, because it is not a mere extract of a Drug, but it is the whole Digestive Fluid, precisely like the human Gastric Juice in its peculiar powers and furnishing a complete artificial Stomach in a bottle.

This NATURAL SOVEREIGN REMEDY is the most effectually so, because it is not a mere extract of a Drug, but it is the whole Digestive Fluid, precisely like the human Gastric Juice in its peculiar powers and furnishing a complete artificial Stomach in a bottle.

Prepared from the Pepsin of Commerce and Rennet of Calves Stomach, with the addition of Hydrochloric Acid and Lactic Acid, and Pepsin Powder, Pepsin Wine, Pepsin Vinegar, Pepsin Lozenges, Pepsin Pills, Pepsin Ale, Pepsin Beef Tea, Pepsin Beef Tea Powder, Pepsin Beef Tea Lozenges, Pepsin Beef Tea Pills, Pepsin Beef Tea Ale, Pepsin Beef Tea Wine, Pepsin Beef Tea Vinegar
